Section 2 - Alphabetical Summary by Manufacturer by Model	Page 31

*** The Average Prices are based on a National Average (USD). The National Average is Calculated using the states that provide us price Information.

All figures compiled in this report reflect only new and titled units plus demonstrators sold retail. New previously unsold units over 2 years old are considered used and not included in this report. All data is for United States Retail sold. The data does not include Canada, Offshore or Direct government contracts. Our reports capture approximately 96% of all retail sold units. Units sold for cash and placed directly into private property may not be recorded by the States.

The figures are based on official state records and will vary slightly from dealer-reported sales because of the time required to register the units. However, over a period of time, the registrations and sales should be approximately the same.

Comparison of Retail to Wholesale Shipments:

Type	Retail Units*	Wholesale Shipment Units#	Retail % of Wholesale
SingleWide	22692	27734	81.8%
MultipleWide	26395	31340	84.2%
Total	49087	59074	83.1%

*based on Statistical Surveys, Inc

#based on NCSBCS

All figures based on rolling 12 months consisting of December 2012-November 2013

Retail sales contain land homes (where available) and park set units

Difference between wholesale and retail is field inventory

The information Statistical Surveys receives from retailers is used to compare land/ home package sales with the data received from the state. Retailers are not used as a direct data source.
