
Voluntary contributions by fund and by contributor, 2017

1. This information document supplements the report on the WHO audited financial statements for 2017.¹ The following schedules are provided in the Annex:

Schedule 1 – Voluntary contributions, by fund

Schedule 2 – Voluntary contributions, by fund and by contributor

Schedule 3 – Deferred revenue, by fund and by contributor

Schedule 4 – Voluntary contributions receivable – non-current and current (by age and by contributor)

Schedule 5 – In-kind and in-service voluntary contributions

Schedule 6 – Voluntary contributions received in advance for 2018

2. The accounting policies for receivables, deferred revenue and revenue are summarized in sections 2.3, 2.15 and 2.16 of the Audited Financial Statements for the year ended 31 December 2017.¹ Revenue from voluntary contributions is recognized in accordance with the International Public Sector Accounting Standards (IPSAS), in particular IPSAS 23 (Revenue from Non-Exchange Transactions (Taxes and Transfers)). Revenue from voluntary contributions is recorded when a binding agreement is signed by WHO and the contributor. Where there are “subject to” clauses in an agreement, WHO does not control the resource and does not record the revenue and amount receivable until the cash is received. Where there are no payment terms specified by the contributor or where payment terms are in the current accounting year, revenue is recognized in the current period. Where payment terms specify payment after the year end, the amount is reported as deferred revenue. Where the start date is indicated as being in the following year, revenue is recognized in the following financial year with any cash receipt recorded as an advance.

3. Each voluntary contribution is recorded through an award. The summary schedules presented in the Annex aggregate those awards, reporting contributions by fund and by donor. Miscellaneous receipts and donor contributions totalling less than US\$ 10 000 are grouped together and reported as “Other and miscellaneous receipts”.

Note 1. The core voluntary contributions account (CVCA) includes funds received to support the Programme budget as a whole, considered fully or highly flexible, and funds that are earmarked only at the level of the category. Voluntary contributions – core includes funds that are earmarked for purposes within the Programme budget, considered designated, or of a medium level of flexibility. Designated funds, earmarked at the level of programme area or major office, are not as tightly specified for detailed activity or expenditure line reporting as voluntary contributions – specified, yet are still earmarked rather than highly flexible so are categorized as voluntary contributions – core.

Note 2. Special Programmes and Collaborative Arrangements mainly represents revenue for polio-related activities.

Note 3. The Contingency Fund for Emergencies was created in 2015 to provide temporary financing for emergency operations. For full details see note 6.1.b.ii to the Audited Financial Statements for 2017(document A71/29).

Note 4. A number of partnerships have moved their administration outside WHO (Stop TB Partnership, Stop TB Partnership Global Drug Facility Fund, the United Nations System Standing Committee on Nutrition and the Roll Back Malaria Partnership). Negative revenue represents the cancellation of remaining amounts due under agreements and the transfer of funds under novated agreements.

Note 5. Voluntary contributions are reported net of the allowance for doubtful receivables reported in the Statement of Financial Performance in the Audited Financial Statements for 2017 (document A71/29). The movement on the allowance is given in note 4.3.

Note 6. Interfund revenue represents the transfer of funding internally between the General Fund and the Fiduciary Fund. These are recorded as an expense to the "donor" fund and as revenue to the "recipient" fund and are eliminated on consolidation.

Note 7. As reported in the Statement of Financial Performance for the year ended 31 December 2017 in the Audited Financial Statements for 2017 (document A71/29), all activities implemented by WHO have been consolidated in the financial report. This includes voluntary contributions received under the General Fund (Programme budget) and the Fiduciary Fund. Voluntary contributions reported in Schedules 1 and 2 of the present report include in-cash contributions only. In-kind and in-service contributions are reported separately in the Statement of Financial Performance and detailed in Schedule 5 of this report.

Note 1. Revenue from voluntary contributions is recognized in accordance with IPSAS 23 (Revenue from Non-Exchange Transactions). Revenue is recorded when a binding agreement is signed by WHO and the contributor. Where there are "subject to" clauses in an agreement, WHO does not control the resource and does not record the revenue and amount receivable until the cash is received. Where there are no payment terms specified by the contributor or payment terms are in the current accounting year, revenue is recognized in the current period. Where payment terms specify payment after the year end, the amount is reported as deferred revenue. Revenue recognition will be revised based on changes to the payment terms listed in the signed agreement. Where the start date is indicated as being in the following year, revenue is recognized in the following financial year with any cash receipt recorded as an advance – see Schedule 6.

Note 2. Interfund revenue represents the transfer of funding internally between the General Fund and the Fiduciary Fund. These are recorded as an expense to the "donor" fund and as revenue to the "recipient" fund and are eliminated on consolidation.

Note 3. Other and miscellaneous receipts include negative amounts representing a decrease in the revenue recognized in a prior period due to changes in contractual terms or a reduction in amounts receivable.

Note 4. Refunds to donors represent an outflow of resources based on a donor request following the submission of a final report showing a balance of unutilized funds. Refunds represent a decrease in the revenue recognized.

Note 1. Voluntary contributions receivable – current and non-current are reported in the Statement of Financial Position and detailed as part of note 4.3 to the Audited Financial Statements for 2017 (document A71/29).

Voluntary contributions receivable – current are amounts that according to the payment terms given in the agreement with the contributor are due as at or within one year of the balance sheet date, or where no payment terms are specified in the agreement. Amounts are aged from the due date of the invoice to the balance sheet date and hence amounts showing with ageing more than 360 days are overdue.

Voluntary contributions receivable – non-current are amounts that according to the donor agreement are due to be received more than one year after the balance sheet date being reported.
