

April 2021 Data Release

The Home Purchase Sentiment Index[®] (HPSI) is a composite index designed to track consumers' housing-related attitudes, intentions, and perceptions, using six questions from the National Housing Survey[®] (NHS).

The Home Purchase Sentiment Index

The HPSI fell 2.7 points to 79.0 in April.

Components of the HPSI

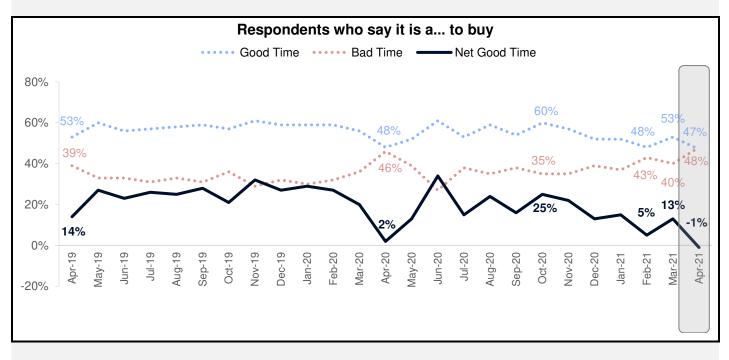

The fall in the HPSI can be attributed to net decreases in four components this month: Buying Conditions, Change in Household Income, Home Price Outlook, and Job Loss Concern. Two components increased: Selling Conditions and Mortgage Rate Outlook

	April 2021				hange
		МоМ	YoY		
Buying Conditions	Good Time	Bad Time	Net Good Time to Buy	-14	-3
Buying Conditions	47%	48%	-1%	-14	
	Good Time	Bad Time	Net Good Time to Sell	0	
Selling Conditions	67%	26%	41%	+8	+77
Home Price Outlook	Go Up	Go Down	Net Go Up	-4	+43
(next 12 months)	49%	17%	32%		
Mortgage Rate Outlook	Go Down	Go Up	Net Go Down		07
(next 12 months)	7%	54%	-47%	+1	-37
Job Loss Concern	Not Concerned	Concerned	Net Not Concerned		4.4
(next 12 months)	80%	0% 16% 64%		-1	+11
Change in Household Income	Significantly Higher	Significantly Lower	Net Significantly Higher	6	. E
(past 12 months)	21%	17%	4%	-6	+5

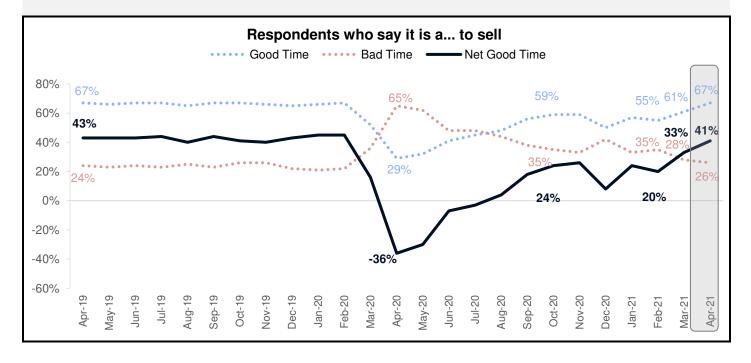

Components of the HPSI – Good/Bad Time to Buy and Sell a Home

In April, the net share of consumers who say it is a good time to buy fell 14 percentage points, becoming negative for the first time in survey history.

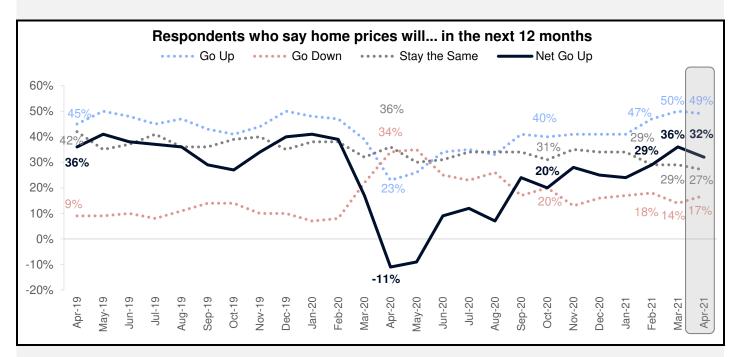

The net percentage of those who say it is a good time to sell increased by 8 percentage points, continuing last month's upward trend.

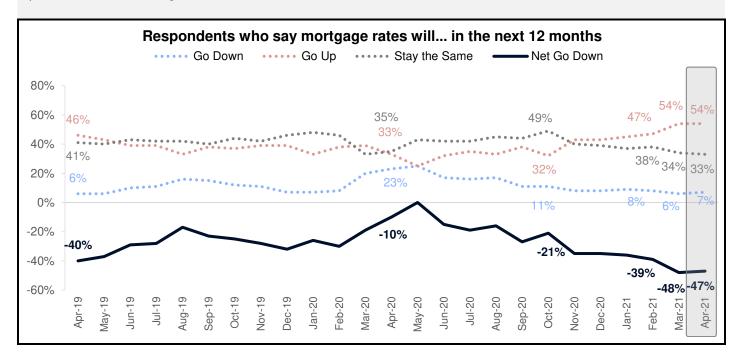

Components of the HPSI – Home Price and Mortgage Rate Expectations

The net share of consumers who say home prices will go up decreased by 4 percentage points, partially reversing last month's increase.

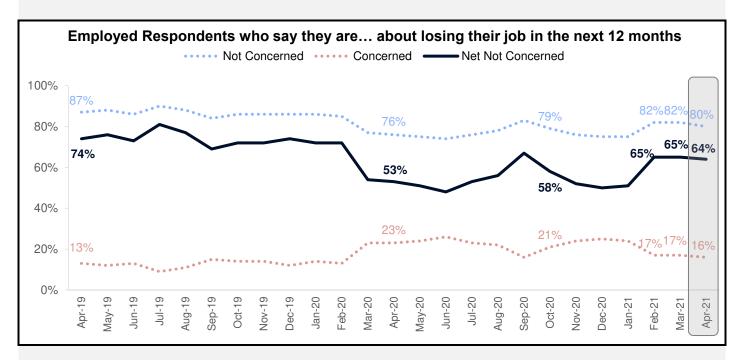

This month, the net share of those who say mortgage rates will go down over the next 12 months rose 1 percentage point to -47%, increasing for the first time since October 2020.

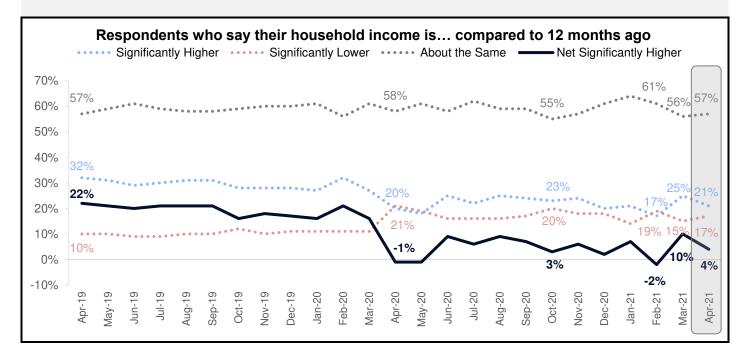

Components of the HPSI – Job Concerns and Household Incomes

In April, the net share of employed consumers who say they are not concerned about losing their job fell 1 percentage point.

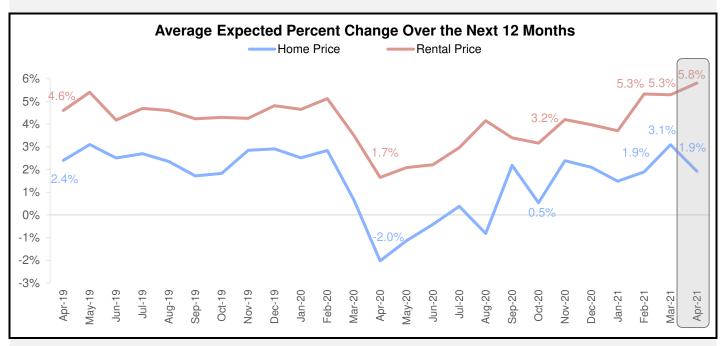

The net share of those who say their household income is significantly higher than it was 12 months ago fell by 6 percentage points to 4%, partially reversing last month's increase.

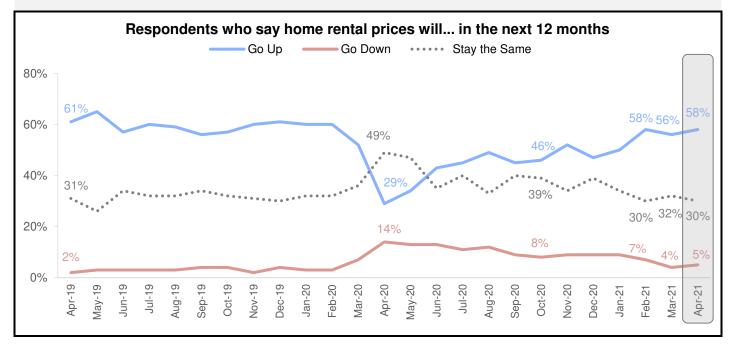

Additional National Housing Survey Key Indicators

On average, consumers expect rental prices to increase 5.8% over the next 12 months, a 0.5 percentage point increase. They expect home prices to increase 1.9% over the next 12 months, a 1.2 percentage point decrease, reversing last month's increase.

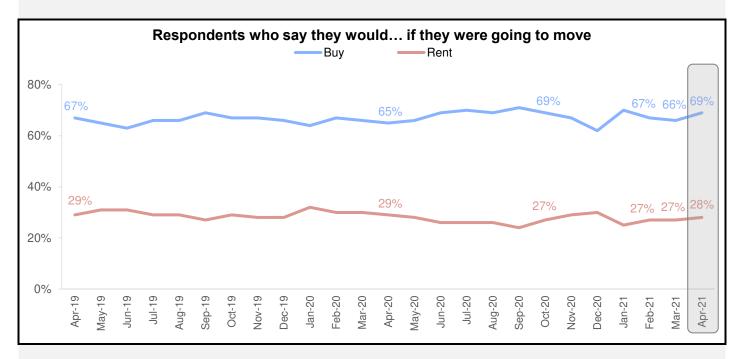

The share of consumers who expect home rental prices to go up increased by 2 percentage points to 58%, returning to February levels, and the share who expect home rental prices to go down rose 1 percentage point to 5%.

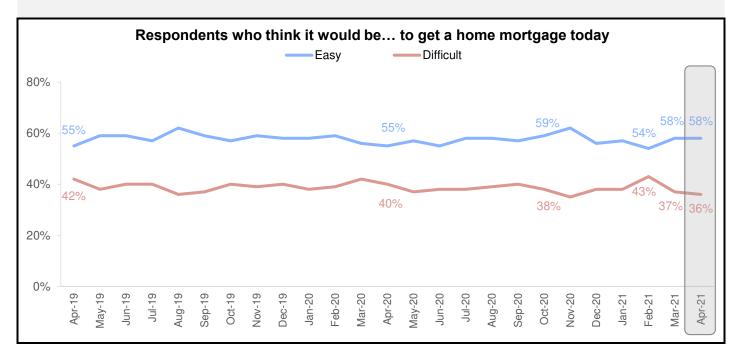

Additional National Housing Survey Key Indicators

The share of consumers who say they would buy a home if they were going to move rose 3 percentage points to 69%. The share who say they would rent rose 1 percentage point to 28%.

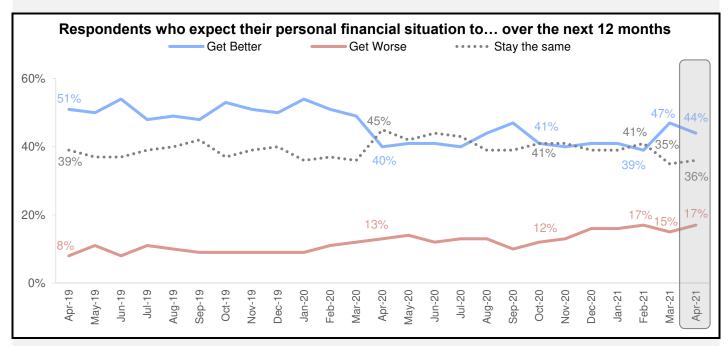

The share of consumers who say getting a mortgage would be easy remained at 58%, while the share of those who say it would be difficult fell 1 percentage point to 36%.

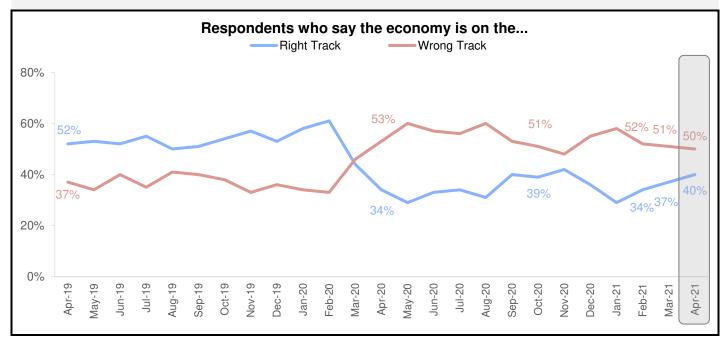

Additional National Housing Survey Key Indicators

The share of consumers who expect their personal financial situation to get better fell by 3 percentage points to 44%, the share who expect it to stay the same rose by 1 percentage points to 36%, and the share who expect it to get worse rose 2 percentage points to 17%.

Continuing trends seen the last two last months, the share of consumers in April who say the economy is on the right track rose 3 percentage points to 40% and the share who say it is on the wrong track fell 1 percentage point to 50%.

The National Housing Survey®

April 2021 APPENDIX

About the Survey

The National Housing Survey[®] polled a nationally representative sample of 1,002 household financial decision makers (margin of error ±3.1%) aged 18 and older between April 1, 2021 and April 27, 2021.

Interviews were conducted by PSB, in coordination with Fannie Mae.

The statistics in this release were estimated from sample surveys and are subject to sampling variability as well as nonsampling error, including bias and variance from response, nonreporting, and undercoverage. Averages of expected price changes were calculated after converting responses of "stay the same" to 0% and after excluding outliers, which were defined to be responses that were more than two standard deviations from the mean.

How the Home Purchase Sentiment Index (HPSI) is Calculated*				
Net Good Time to Buy Very or Somewhat Good Time To Buy – Very or Somewhat Bad Time To Buy	Q12			
Net Good Time to Sell Very or Somewhat Good Time To Sell – Very or Somewhat Bad Time To Sell	Q13			
Net Home Prices Will Go Up (next 12 months) <i>Home Prices Will Go Up – Home Prices Will Go Down</i>	Q15			
Net Mortgage Rates Will Go Down (next 12 months) Q20B Mortgage Rates Will Go Down – Mortgage Rates Will Go Up Q20B				
Net Confident About Not Losing Job (next 12 months)Q112BAmong Employed Respondents, Not at All or Not Very Concerned about Losing Job –Q112BVery or Somewhat Concerned about Losing JobQ112B				
Net Household Income is Significantly Higher (past 12 months) Q116 Income is Significantly Higher – Income is Significantly Lower Q116				
$HPSI = \frac{Q12 + Q13 + Q15 + Q20B + Q112B + Q116}{6} + 63.5$				
* The HPSI calculation includes the addition of a constant of 63.5 in order to set the index's initial value at 60 as of March 2011, in range with the Index of Consumer Sentiment and the Consumer Confidence Index				

with the Index of Consumer Sentiment and the Consumer Confidence Index
