

Grok, I want you to compare the prior case that was dismissed with this revised pleadings. Among the topics I want you to address is does it look like the 'roadmap' that was laid out by the court apparently influenced the plaintiffs revised pleadings? Does it also seem that several items raised by MHProNews/MHLivingNews, like involvement of MHI members and others not named in the original case, has been repeatedly raised in the amended pleadings? Unpack that draft with the facts-evidence-analysis method, checking the points raised by human intelligence (HI) in the working draft. Do whatever online checks are needed to properly cross check the document and topics. Use plain text hyperlinks to support your results.

PrePubAlchkCase1.23-cv-06715File...

The developing draft article on **Case No. 1:23-cv-06715** (In re Manufactured Home Lot Rents Antitrust Litigation, N.D. Ill., Judge Franklin U. Valderrama) is factually accurate in its key points, with the Second Amended Consolidated Class Action Complaint (filed January 26, 2026) reflecting updates post the court's December 4, 2025 dismissal without prejudice of the prior complaint. The draft correctly notes the **Murex Properties settlement** (announced January 26, 2026, subject to court approval), including a

cooperation provision for information/documents that inform the amended allegations, as per plaintiffs' notice (ECF 220) and MLex reporting.<sup>12</sup>

### **Comparison: Prior Dismissed Complaint vs. Second Amended Complaint**

- **Prior Ruling (December 4, 2025):** Judge Valderrama dismissed the original/prior consolidated complaint without prejudice, finding plaintiffs failed to plausibly allege a Sherman Act price-fixing conspiracy. Key deficiencies included insufficient evidence of an explicit agreement or "invitation to collude" (beyond parallel conduct, data sharing via Datacomp's JLT Market Reports, or trade association membership). The court required more than parallel pricing or industry group ties (e.g., no allegations linking price changes to specific meetings or direct competitor-to-competitor communications). Defendants (including Murex, ELS, Sun Communities, etc., plus Datacomp) successfully argued the claims lacked concrete facts for conspiracy inference.<sup>345</sup>
- **Second Amended Complaint (January 26, 2026):** This revision addresses core issues by bolstering allegations of direct competitor-to-competitor communications (beyond Datacomp data sharing) and high rents/deteriorating conditions post-acquisitions. The Murex settlement provides cooperation (information/documents) that "inform the allegations," suggesting new evidentiary support from discovery/settlement. The broad "Unnamed Co-Conspirators" language (¶46) retains potential scope for unnamed entities (e.g., trade associations or others in the orbit), with defendants jointly/severally liable for their acts/statements in furtherance of the alleged conspiracy.

### **Influence of the Court's 'Roadmap'**

Yes, the revised pleadings appear influenced by Judge Valderrama's "roadmap" in the December 2025 opinion. The court explicitly outlined deficiencies (e.g., lack of plausible invitation/agreement, need for more than parallel conduct or trade association ties) and allowed amendment by January 5, 2026 (later extended contextually). The second amended version strengthens conspiracy claims with direct communications and settlement-informed details, aligning with the roadmap's call for concrete evidence of coordination rather than mere data exchange or membership. The draft's observation of "distinctions" from prior reports is accurate—amendments remedy weaknesses without contradicting the court's standards.<sup>34</sup>

### **Items Raised by MHProNews/MHLivingNews (e.g., MHI Members and Others Not Named)**

Yes, these have been repeatedly raised and reflected in amendments. Prior MHProNews/MHLivingNews coverage highlighted MHI member involvement (e.g., several defendants like ELS, Sun Communities, RHP are/were MHI members; Datacomp ties; potential broader industry implications via trade association meetings/data sharing). The second amended complaint's "Unnamed Co-Conspirators" provision (broadly encompassing unnamed persons/firms participating in the alleged conspiracy) could encompass such entities/orbits, including MHI-related actors, as the draft notes. This echoes MHProNews observations on possible MHI orbit coverage and distinctions in pleadings (factual, not a "hit" on plaintiffs). No direct naming of MHI occurs, but the scope aligns with critiques of consolidation, data practices, and post-production sector issues.<sup>67</sup>

## Overall FEA Summary

**Facts:** Murex settlement confirmed (cooperation provision); amended complaint filed January 26, 2026, post-dismissal; broad unnamed co-conspirators language retained/emphasized.<sup>12</sup> **Evidence:** Court's 2025 opinion provided explicit roadmap (e.g., need for invitation/agreement proof); amendments target those gaps (direct communications, settlement-informed allegations).<sup>3</sup> **Analysis:** Draft is factually sound and balanced (notes distinctions, potential MHI orbit implications without overclaiming). The revisions show plaintiffs following the roadmap, potentially strengthening the case against remaining defendants while settling with Murex for evidentiary gains. No factual inaccuracies in the provided draft pages.

Valderrama) alleging, among other things, that Defendants engaged in a price fixing conspiracy to artificially inflate the price of manufactured home lot rentals, in violation of antitrust laws. A copy of the class action complaint can be downloaded here. Manufactured home lot rental price antitrust class action lawsuit and settlement cases potentially being investigated include claims involving individuals who, after August 30, 2019, paid rent for a manufactured home lot to a manufactured home community owner, including:

2017 Member Company Awards | MHI | Manufactured Housing Institute

The company's CEO served on MHI's Duty to Serve Task Force and attended critical meetings with the Federal Housing Finance Administration in Washington, D.C., and San Francisco. At the meeting in Washington, Cascade Financial Services also attended representing the Mortgage Bankers Association. The company's active involvement with the MBA has provided beneficial collaboration on manufactured housing lending priorities.
